

# Viva ELVIS Theater at ARIA

Las Vegas, Nevada

**Owner**  
MGM

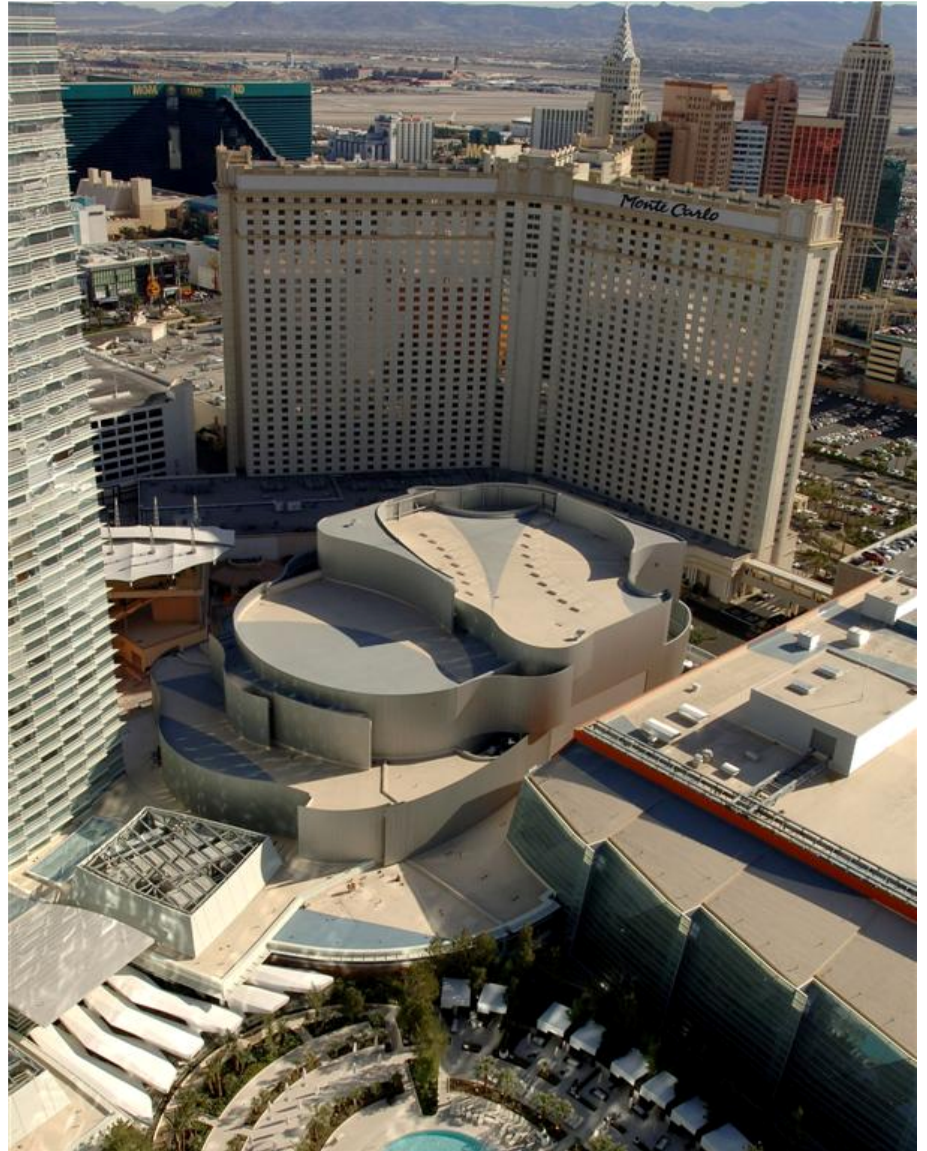

**Executive Architect**  
HKS

**Design Architect**  
Pelli Clarke Pelli

**Completion Date**  
2009

**Total Area**  
165,000 gsf

**Project Characteristics**  
1,800 seats

Thornton Tomasetti provided structural design services for this steel-framed 165,000 gross-square-foot performing arts theater custom built for Cirque Du Soleil's Viva ELVIS show. The facility includes an 1,800-seat auditorium with balcony, full flyloft with multiple catwalks, support spaces and a feature lobby. The entire building was drawn in Revit from schematic design through construction administration.
