This project consists of a new courthouse building and a new justice agencies office building totaling 79,000 square feet. The courthouse is a steel-framed two-story structure with partial basement, a secure bus sally port, and a central day holding facility. There are six courtroom suites, a court clerk's office, jury assembly and deliberation rooms, and sheriff's department court security offices.

The single-story, steel-framed justice agencies building houses offices for the district attorney and public defender.
