

San Francisco Hall of Justice Expansion (County Jails #8 and #9)

San Francisco, California

Owner

City and County of San Francisco

Architect

Williams & Tanaka/Del Campo & Maru

Completion Date

2004

Construction Cost

\$44.2 million (both phases)

Number of Stories

10

This project consisted of one ten-story and one six-story tower on a concrete podium utilizing concrete shear wall and steel-braced frame systems on a pile foundation, respectively. Structural features include curved shear walls and large circular atria through concrete flat slabs, ramps, a pedestrian bridge, and basement walls resisting hydrostatic pressures.

Buildings include prison housing, industries, offices, medical clinic, police functions, and garage. Phase 2 involved the structural design of a vertical addition to the six-story tower to expand the clinic and the inmate services department.
